- Still available to extend or repair racking supplied since 1992

Dexion's Speedlock MK3 product range is renowned worldwide for its versatility, quality and strength. Whilst maximising the efficient storage of palletised loads, it also offers a comprehensive range of optional rack protection which safeguards both people and product. With nearly 40 years of product development, this system is established as the world's favourite pallet racking. Designed to comply with the SEMA standards, Speedlock MK3 uprights and beams are manufactured using high quality steel and have a durable powder coated finish, which is available in a range of colours.

A wide range of beam sections and sizes enables Speedlock MK3 to be designed and tailor-made for pallet storage and heavy duty shelving needs.

Column guards and mesh screens.

Clearway and precision engineered end connectors provide easy jam-free beam adjustment, allowing repositioning without disturbing adjacent loads.

Dexion's famous Beam Safety Lock is fitted to minimise the risk of accidental dislodgement of beams.

The efficient solution for any space and any load
