Dexion Continues to Support the Environment in 2017

On Saturday, the 6th of May, volunteers from the Dexion team took on an action to clean up various sites around the Rasnov area together with friends from UM 01751, Goscom Cetate Rasnov and Rasnov City Hall as represented by Deputy Mayor Liviu Butnariu.

130 people took part in this action, to clear out the trash littered around the landscape. The volunteers were split into groups, with each group being assigned a specific area.

This is the third year in a row that Dexion takes active steps into cleaning the environment, as part of an action that is becoming a tradition for both the company and for Rasnov's community.

Dexion's management team wishes to extend its thanks to the volunteers who chose to spend their free time in making Rasnov a cleaner place, therefor proving their civic spirit and care about the environment.
