

News:

Fast forward to the Dexion stand at Transport & Logistics 2017

Dexion has over 60 years experience of providing cutting-edge storage solutions throughout Europe. They have always pushed boundaries to provide products and services that move the future forward.

So when the Dexion team heard that the organisers of **Transport & Logistics Antwerp 2017** had chosen the motto 'Let's move the future forward' for this year's event, they were delighted to be asked to showcase some of their innovations.

*"This is the largest trade show for the transport & logistics sector in the Benelux region, so we know we are going to be busy," said **Guido de Cock, General Manager**. "At other events, our automated products such as the Tornado storage machine and MOVO mobile shelving have been a huge draw for visitors. We'll be showcasing these and other products at the event and there will be a team on hand to discuss any specific requirements. Whether you are an existing Dexion client or a new face, we'd love to see you on the stand."*
